on HIV/AIDS, Tuberculosis and Malaria
For Anglophone Africa

The CRG Technical Assistance Program is one part of a US$15 million Global Fund Board-approved strategic initiative that runs through December 2019. The strategic initiative aims to ensure that all people who are affected by the three diseases can play a meaningful role in Global Fund processes and ensure that grants reflect their needs.

The Community, Rights and Gender (CRG) Technical Assistance Program provides support to civil society and community organizations to meaningfully engage in the Global Fund model, including during:

- *Country dialogue*
- *Funding request development*
- *Grant-making*
- *Grant implementation*

Under this program, national civil society and community organizations can apply for technical assistance in a range of areas, such as:
- *Situational analysis and planning*
- *Participation in country dialogue*
- *Program design*
- *Oversight and monitoring of grant implementation*

Some examples of technical assistance requests include:

- *Support to design, plan and implement a consultation process to identify key population priorities for HIV funding request development*
- *Designing and budgeting for community systems strengthening programs as part of the grant-making process*
- *Facilitating a funding request review among youth organizations to identify gaps and propose appropriate interventions for inclusion*
- *Proactive, peer-led community engagement support to civil society and community in sustainability and transition planning*

Technical assistance is provided by nongovernmental organizations – including key population networks, universities and civil society organizations.

NOTE: The program currently does not support:
- *Strengthening Country Coordinating Mechanisms*
- *Long-term capacity building of civil society organizations*
- *Funding request writing*

Organizations can request CRG technical assistance at any time throughout the funding cycle.

HOW TO APPLY FOR A TECHNICAL ASSISTANCE (TA)

 TA should be demand-driven, so you are requested to reach out and request support from those who are offering it. Be proactive! Below are links for TA request forms to apply for support from the Global Fund CRG TA Program:

You can access the CRG Technical Assistance Program Request Form on the GFATM website (www.theglobalfund.org) or request from eannaso@eannaso.org

• It typically takes 4 to 6 weeks from time the Global Fund receives a request to the TA being deployed.
• The Fund will need to assess the request for eligibility, and if eligible, identify a TA Provider/Consultant, define a budget, and draft the terms of reference in consultation with you.
