How to Measure Our Impact

Now comes the tricky part. Holding a consultation (Module #1), publishing an outcome document (Module #2), and doing lots of advocacy (Module #3) is important, but how do you know if you made a difference? That’s usually the toughest bit. To a lot of funding partners, this is a really important part of the process. Measuring out impact should be equally important to us, as civil society and communities, too! Grab your calculators for this one, we’re about to do some math!

Stay tuned for Module #5, coming next week!

Warm regards from the EANNASO Secretariat and the Regional Platform Team
