Request to Solicit TB Experts for the Technical Review Panel & Nominations for the Shortlisting Panel

Dear Colleagues,

As you may be aware already, the Global Fund is currently recruiting additional HIV, tuberculosis, malaria and health, rights and development experts to join the **Technical Review Panel**. The TRP is responsible for assessing funding requests for technical merit to ensure Global Fund investments are positioned to achieve the highest impact and contribute to the achievement of the new Global Fund Strategy 2017-2022: [Investing to End Epidemics](#) and its core objectives of:

- Maximizing Impact Against HIV, TB and Malaria
- Building Resilient and Sustainable Systems for Health
- Promoting and Protect Human Rights and Gender Equality
- Mobilizing Increased Resources

Information on the Recruitment and Call for Applications

A call for applications has been launched and announced on our website: <http://www.theglobalfund.org/en/trp/recruitment/>. All relevant information (links to application forms, the TRP member profile, FAQs etc.) can be found on this page.

The closing date for applications is **Monday, 5 September 2016**. The recruitment process is expected to be completed in October 2016 with decisions to be taken on selected candidates by the Board's Strategy Committee.

We kindly request you to reach out to your networks to encourage applications from suitable experts who are interested and available to perform this important function. To recommend a candidate, please send an e-mail to: TRPrecruitment@devex.com with name and contact details for this person (and area(s) of expertise, if possible). The recruitment company, Devex, will then contact this person and solicit an application from this expert.

We also call for support from institutions with such expertise to create an enabling environment for potential TRP members.

Nominations for Shortlisting Panel

There are three steps leading to the appointment of new TRP members: i) screening of applications by the external recruitment company, Devex; ii) shortlisting by a panel of technical experts made up of one person per party: external recruitment company, TRP and technical partners, for each of the following expertise areas: HIV, tuberculosis, malaria and health, rights and development experts; and iii) final recommendation to the Strategy Committee by the Strategy Committee Working Group on TRP Matters.

Warm regards from EANNASO and the Regional Platform team.
