2017-2019 Global Fund Allocations and Application Materials

Greetings from the Regional Platform for Communication and Coordination for Anglophone Africa, hosted by EANNASO!

On Thursday 15 December, 2016, all countries were notified of their Global Fund allocations for 2017-2019. The letters were sent to the Country Coordinating Mechanisms.

With the new allocation methodology, more funding is directed towards country programs with severe and extreme burdens of HIV, TB and malaria, towards sub-Saharan Africa, towards countries with high HIV infection rates in women and girls, countries with a high burden of multi-drug-resistant tuberculosis and to the top 15 high burden malaria countries (see EANNASO's Community Guide to the Global Fund's Allocation Methodology in [English](#), [Portuguese](#) and [Swahili](#)).

The total amount of funds currently available for the 2017-2019 allocation period is US\$11.1 billion. That includes US\$10.3 billion for country allocations and US\$800 million for catalytic investments.

To learn more about the 2017-2019 Allocations go to the Global Fund's Allocations page (<http://www.theglobalfund.org/en/fundingmodel/process/allocations/>)
