Overview of Technical Assistance Providers

The Community, Rights and Gender Strategic Initiative (CRG SI) has pre-qualified twenty-six (26) civil society and key population networks and organizations as CRG technical assistance providers for the 2021-2023 implementation period. These organizations were selected through an open and competitive tender process, to ensure providers have a strong track record and relevant expertise in relation to human rights, gender, community responses and community systems strengthening. Technical assistance providers will be selected in line with the specific requirements of each technical assistance request and based on their technical and regional expertise, language of delivery, availability, ability to identify national and regional community experts and to contribute to their skills transfer, past performance and value for money.

TECHNICAL ASSISTANCE PROVIDER	TECHNICAL AREA										REGION
	Addressing **gender, age and human rights related barriers** in relation to access to and retention in HIV, TB and malaria services	Engagement of **women and girls, particularly AGYW**, in sexual and reproductive health policies and programs, particularly within the context of HIV	Engagement of **young people**, including adolescents, from HIV, TB and malaria key affected populations	Engagement of **key and vulnerable populations in HIV** prevention, treatment, care and support and related advocacy	Engagement of **malaria activists and civil society actors** in malaria control and access to care and support and related advocacy	Engagement of **TB activists and civil society actors** in TB prevention, treatment, care and support and related advocacy	**Sustainability, transition** and related processes (i.e. health financing, budge accountability and advocacy, social dialogue and social contracting)	**Community systems strengthening** as part of broader interventions to strengthen resilient and sustainable systems for health and community responses to HIV, TB and malaria	**Community-led monitoring** and feedback mechanisms for social accountability and to improve the responsiveness, effectiveness and impact of programs and services	Ensuring linkage to care and engagement of vulnerable and marginalized populations, including IDPs, refugees and migrants, in conflict and emergency settings	**Regional focus**[1]
